

Pets First Diane's Priority Pet Care

Testimonials

I have known Diane Mead of Diane's Priority Pet Care since July 2007 when our family began boarding our then 10-year-old Gordon Setter Abby, in Diane's home. Diane is very friendly, warm, and caring, and clearly loves pets and cares for them as if they were her own. Her initial "Meet and Greet" appointment allowed all of us to become acquainted with one another and Abby to become familiar with Diane's home. It allowed Diane to understand Abby's medical history and her needs. I was also able to tour Diane's home and see where Abby would enjoy her time there. Diane uses gates to partition off certain areas from one another to allow pets to get acquainted in a gradual, relaxed manner. Her backyard is large, and allows for dogs to roam, run and interact with one another.

We have boarded Abby with Diane several times a year for the past 4 years, and I have always felt confident and comfortable leaving Abby in her care. Diane demonstrates a great depth of knowledge in pet health and medical care, as well as pet behavior. As Abby has aged, Diane has accommodated Abby's changing medical needs and notices any changes in her medical status. Abby is relaxed and happy upon arrival and pick-up in Diane's home. Diane makes her feel comfortable, loved, and cared for in her clean, pet accommodating home.

Diane is wonderful with remembering details about Abby, and strictly adheres to all guidelines and instructions she is given upon boarding arrival. She calls me with any questions or status changes with Abby, and I can easily contact her to ask how Abby is doing. She also makes sure that all pets are interacting safely and appropriately with one another. Upon boarding pick-up, Diane recaps Abby's boarding experience, relating notable details that are interesting, funny, and helpful.

In closing, I am so appreciative of Diane's excellent care of Abby while we are away from home. Pets are truly her priority, and this is so visible when you meet her and observe her in action. Her incredible animal knowledge and her warm, caring personality are what we pet owners long for when we need to board our pets. I have certainly found this true of Diane Mead. Thank you Diane!!

Sincerely,

Barbara Udell
