

## Pets First Diane's Priority Pet Care

### Testimonials

David and I have known Diane since February 2009, when our cute Max was just 4 months old. When we adopted Max, a miniature Australian Shepard, we knew there would be times when we would be unavailable to care for him, such as air travel vacations, and we would need a loving home to keep him overnights while we were away. Diane's Pets First is the only place Max has ever been boarded and we have been extremely happy with the care he has received while we've been away. We know he is happy to arrive at Pets First because he gets so excited to be at Diane's home. When we pick him up, she has many stories to tell us about his behavior and he is always on the same schedule, just as we left him at drop-off. He has never exhibited any anxiety or behavior changes after coming back home.

Max is a high-energy dog and really likes to chew. Diane took him as a boarder even when he was a puppy, knowing he wasn't yet fully house-trained and that he would need extra attention to keep his chewing to appropriate toys. Diane has always been honest, straightforward and a reputable caregiver for Max. We would recommend Diane's Pets First to anyone who needs a loving boarder while they're away!
